this book offers an overview of the interface between european integration transatlantic

relations and the rise of the rest in the early 21st century the collapse of the soviet bloc opened up an era in which the drivers and perceived benefits of the us alliance among european countries have become more variegated and shifting the proposition that the us remains at once an indispensable and intolerable nation in europe is a key concept in the alliance as the us remains inextricably tied to the continent through economic military and cultural links this work examines this complex subject area from many angles including an analysis of the historical and cultural contexts of america s relations with europe as well as a discussion of the politics of transatlantic affairs which utilises evidence gleaned from a series of case studies in the concluding chapters the author assesses the likelihood that the west can entrench its global dominance in the realms of soft and hard power and by effecting a controlled reform that will see multilateral structures open up to emerging powers this book will be of great interest to students of european politics eu integration transatlantic relations us foreign policy diplomacy international security and ir in general

though scholarly attention to democracy promotion is increasing there is still little comparative and theoretically based work on the protagonists of democracy promotion this book investigates the motives that drive democracy promotion in a comparative and theoretically oriented manner exploring how democracy promoters deal with conflicting objectives and the factors that shape their behaviour it also addresses the more policy oriented debate on the contemporary challenges to democracy promotion focusing on us and german policies towards three kinds of challenges the emergence of radical leftist governments in bolivia and ecuador the political rise of islamist movements in turkey and pakistan and the consolidation of semi authoritarian rule in belarus and russia in each case north western democracy promoters have been confronted with serious conflicts of objectives between security economic interests and democracy promotion the analysis

and comparison of such situations in which democracy promoters have to deal with competing objectives and make tough decisions provides powerful evidence as to the factors that shape democracy promotion the comparative international politics of democracy promotion will be of interest to students and scholars of international relations comparative politics democratization studies and foreign policy
